ACKNOWLEDGEMENT

Alhamdulillah and thanks to Almighty Allah, with his blessing and grace, I am able to completed this final year thesis on time. Firstly, I would like to express my special thanks to my supervisor Mr. Sukarnur Che Abdullah for his guidance, advice and comments in the preparation of this final year project thesis.

I also would like to express my gratitude to Mr. Adnan Bin. Abdul Hamid who gave me information and guided of Mechanical press.

Thanks also to Mr. Sanusi bin Md. Yasin who is senior designer of Mega Magna Lite Sdn. Bhd for his guidance and advice in designing press die.

Last but not least, a special thanks to my friends and family for their support and commitment in order to fulfill my tasks.

ABSTRACT

Stamping Technology is one of the manufacturing process that highly used in the manufacturing industrial. This project is presenting the study of Design New Method Cutting Metal Plate Lead model TRSB-30C. Current research that relate with stamping press is study of developed die design and also improvement the performance of mechanical press machine. CATIA the CAD software and Auto cad software that is used in this project is a tool as initial process to design product and component. This project has present the standard operating procedures of stamping press and improvement of die design.

Keywords : Stamping press, Die design, operating procedures.

CHAPTER I INTRODUCTION

1.1	Project Background	1
1.2	Mechanical Press	2
1.3	Stamping Die	2
1.4	Die design	2
1.5	Objectives of Project	3
1.6	Problem Statement	3
1.7	Significance of Project	3
1.8	Scope of Project	4

CHAPTER II LITERATURE REVIEW

2.1	Machine Press	5
	2.1.1 Machine Press	5
	2.1.2 Type of Presses	6
2.2	Presses	7
	2.2.1 Definition	7
	2.2.2 Characteristics	8
	2.2.3 Performance	8
	2.2.4 Mechanical and Hydraulic Presses	9
	2.2.4.1 Crank Press	9
	2.2.4.2 Knuckle Press	9
	2.2.4.3 Friction press	10
	2.2.4.4 Screw and Rack Press	10
	2.2.4.5 Link Press	10
	2.2.5 Mechanical Press Classifications	10
	2.2.5.1 Crank Press Capacity	11
	2.2.5.2 Force Capacity	11
2.3	Punch Press	12
	2.3.1 Bending	13
	2.3.2 Piecing	12
2.4	Die	13
	2.4.1 Die Component	14
	2.4.2 Die Button	15
	2.4.3 Bushing	15
	2.4.4 Guide Post	15
