ABSTRACT

This study attempts to show the relationship between physical work environment and employees' work performance at Amanah Saham Nasional Berhad, Temerloh. The independent variables used in this research were physical work environment consisting of Office Lighting, Office Furniture, Office Noise and Office Air Quality. Meanwhile the dependent variable was employees' work performances. The problem statement is this research attempts to identify the relationship between physical work environment and employees' work performance at Amanah Saham Nasional Berhad, Temerloh. Berhad (ASNB), Temerloh. The researcher uses the questionnaire to collect the data in this research. Therefore, the questionnaires were distributed to all employees by departments at Amanah Saham Nasional Berhad, Temerloh. The respondents that answer the questions are 44 from 50 respondents. This research would show the result of factors and relationship between physical work environment and employees' work performance. The analysis that used in this research were reliability analysis, normality analysis, demographic analysis and finding based on the research questions. All the result is using the SPSS software version 25.

Keywords: Office Lighting, Office Furniture, Office Noise and Office Air Quality and employee's work performance

ACKNOWLEDGEMENT

First and foremost, I would like to be grateful to Allah S.W.T by reason of giving me a chance to finish my research study in fixed period and giving me a good health alongside accomplishing this research study and finally led to the success in finishing my academic project I would like to give a big thank to Amanah Saham Nasional Berhad, Temerloh for giving me an opportunity to conduct a research study at the organization. A special thanks goes to my supervisor, Mr Fadzli Fauzi for support and information sharing in which it truly helped the progression and smoothness of my research study. Besides, I also want to show my gratefulness to all the staff of Amanah Saham Nasional Berhad, Temerloh who spares their precious time in helping along this research study. Their cooperation is much appreciated. A great deal of appreciation also goes to my university, which is Universiti Teknologi Mara (UiTM) Cawangan Kelantan. I would like to thank my research supervisor, Sir Ibrahim Bin Zakaria, who always encourages, supports and helps me in completing this academic project. Finally, I would like to thank all my friends especially my research group for sharing a lot of knowledge that help me in finishing this academic project. Not to forget, the final tribute and appreciation for my family members especially parents that always support me in the preparation of this academic project and in finishing my research study.
