## ACKNOWLEDGEMENT

First of all, I would like to express my deepest appreciation to Allah S.W.T who provided me the possibility to complete this report. A special gratitude I give to my coordinator for my Industrial Training, who contribute in stimulating suggestion and encouragement, and always helped to answer any of my curiosity along my Industrial Training.

Special thanks to my supervisor, En. Mohd Asrul Hassin which is already guide me since the first day of this report has been made until the last day of submission and who is have invested his full effort in guiding me in order to complete this report.

Furthermore, I would like to acknowledge with much appreciation to staff at JKR PASIR MAS KELANTAN for giving cooperation, teaching and assisting me in doing work at the office and because of them I have learned something new for example about how to manage government projects.

Last but not least, a special thanks goes to my parents and family that always give me a positive support and encouragement in order to completing this report.

## ABSTRACT

The purpose for this Practical Training (BSR 360) is to make sure what I have learn from 1<sup>st</sup> Semester till 5<sup>th</sup> Semester can be applied during my internship. The other reasons is to gain a new knowledge and experience in my workplace and how to communicate with people and co-worker. It is compulsory for building survey to carry this report because it gave 40% from total mark before we graduate.

As conclusion by doing this Practical Training, I gain more information and knowledge about the how to manage project, sell quotation document and much more. I fell so glad because from this internship, I have knew everything on how to solve problem, how to work with professional workers and others. I hope that this report which has been done are followed requirement that are need by task and lecturer are satisfied with my report.
