## **ABSTRACT**

The study is mainly focused on the laws governing in Internet banking. Adopting a doctrinal approach, this research reveals that there are many weaknesses found in the current legal framework in Malaysia. This research has suggested several recommendations in order to improve the current laws governing phishing. This study has also made a comparison with the laws in the United Kingdom, the United States of America, Singapore, Thailand and Australia.

## **ACKNOWLEDGEMENT**

In the name of Allah S.W.T, the Benefit, the Merciful

Deepest appreciation towards the Almighty Allah S.W.T, with all of His blessings and grace, this study managed to be finished at its best. We would also want to pledge our earnest gratitude towards our adviser, Dr. Hartini Binti Saripan for her never ending supports and guidance in enlightening us throughout the research right from the very beginning. Millions of thanks to our friends and families who always been a strong foundation for us to complete this study. Their indefinite love in supporting throughout the research will remembered and treasured for the rest of our lives. We hope that this research will be of the assistance to other future researchers and became an additional reference in this field.
