بِسْمِ اللَّهِ الرَّحْمَنِ الرَّحِيمِ

“In the name of Allah the Almighty, the Merciful, and the Beneficent”

The most glory to Allah S.W.T, Most Gracious, the Most Merciful, and peace upon his messenger Holy Prophet Muhammad S.A.W. All the worship belongs to only Allah. I seek refuge to Allah from the wickedness within and from the evil deeds. I also praised to Allah S.W.T for giving me courage, time, strength, and knowledge to complete this project paper properly.

First and foremost, I would like to express my deepest gratitude to my advisor, Madam Fatihah Norazami binti Abdullah for her advices, comment, brilliant suggestions, knowledge and untiring supervision which beyond repayment in preparing this project paper. Her constructive comments and advices have been valuable in making this project paper successfully.

My special thanks also go to my second examiner, Madam Asma Shazwani binti Shari, who had given me the knowledge that I need in fulfilling the requirement of my study. Both have given me the encouragement and hope for me to be more successful. This project paper would have been impossible without their guidance.

Last but not least, my heartiest appreciation goes to my family for their encouragement and moral support. Thank you to them from the bottom of my heart. My special thanks are also dedicated to my friends for giving me support, cooperation, idea contribution and theirs suggestion in order to complete this project paper. Once again to all of the above, I would like to thank you and may the Al-Mighty bless everybody

ABSTRACT

This exploratory research was carried out on women entrepreneurs in Kelantan with the aim to identify the factors that influence them to involve in entrepreneurship. This study was based on simple random sampling method based on MARA customers and the data was collected after they are answers the entire question required. This study also implemented on 50 respondents. Questionnaires were distributed and the data gathered was analyzed to derive possible findings of the study. For this study, a Multiple Linear Regression had been use to measure the relationship between the dependent variable (Women Entrepreneurs) and the factors of influence the involvement (Family, Culture, and Academic Level).While conducting this study, it also has several implications such as information constraint, lack of cooperation from respondents and also misinterpretation towards questionnaire. This research also included some recommendations that related to the study which is maybe can help women entrepreneurs to survive longer in the business.
