ACKNOWLEDGEMENT

“IN THE NAME OF ALLAH THE MOST GRACIOUS AND THE MOST MERCIFUL”

My heartiest gratitude and praise goes to Allah the Almighty for granting me the strength, patience and courage throughout the process of completing this research paper. I'm grateful to Him and pray more blessings will be given in this life as a Muslim. May Allah always guide us to his straight path.

First and foremost, I would like to express my deepest appreciation to my advisor, Pn. Nor Halida Haziaton Mohd Noor for her invaluable guidance, encouragement and concern throughout the preparation of this research paper. Thank you for all the support and patience in helping me from the first beginning of the preparation of this research paper. I also would like to express my sincere appreciation to my second advisor, En. Wan Mohd Firdaus Bin Wan Mohamad for his guidance and comments in helping me to complete this research paper and evaluate my research. My appreciation also goes to my supervisor En. Azni Raizam Bin Mohd Sarip, Manager of Compliance and Governance, PETRONAS Trading Labuan Corporation Limited (PTLCL), who support and encourage me in doing my research. Let me take this opportunity to thank all, PETRONAS Trading Labuan Corporation Limited (PTLCL) staffs for their help and guidance during my internship.

My deepest gratitude to my beloved family, lecturers and friends for their untiring support, assistance and encouragement. Last but not least, my best regards and thanks to everyone who had involved in completing this research paper either directly or indirectly. Thank you very much everybody for such beautiful memories and words of encouragement.

2.4	Inputs and Outputs	21

CHAPTER 3: RESEARCH METHODOLOGY

3.0	Introduction	22
3.1	Model – Data Envelopment Analysis (DEA)	22 - 26
3.2	Inputs and Outputs Variables	26 - 27
3.3	Data Collection	27 - 28
3.3.1	Descriptive Statistics for Inputs and Outputs 2004 – 2010	29 - 30

ABSTRACT

The Islamic banking environment has grown tremendously over the past several years and will continue to grow to allow better growth of economy. The study is to identify the efficiency change or improvement of Islamic Bank's performance during the period of 2004-2010. Specifically, the purpose of the study is to measure the efficiency of Islamic Bank's performance in ASEAN country. The data consists of 21 Islamic banks in ASEAN; Malaysia, Indonesia, Singapore & Brunei Darussalam. The efficiency of the Islamic bank's performance is measured by using Data Envelopment Analysis (DEA) approach with a specification of input and output variables. The finding suggest that during the period of study, scales inefficiency dominates pure technical inefficiency in the ASEAN Islamic banking sector. We found that the Islamic banks have exhibited higher pure technical efficiency compare to its technical efficiency. The results seems to suggest that the technical efficiency tend to be much more sensitive to the economy factors.

Key words: ASEAN Islamic bank, efficiency, Data Envelopment Analysis (DEA).
