ABSTRACT

Second language learning (L2) has been increasing lately especially in Malaysia. One of the most languages people learns as their L2 is Arabic. In Malaysia, most of citizens are Muslims and this could be one of the reasons people here learns Arabic. This study was conducted in order to investigate the reasons why people learn Arabic as their L2 in Arab Mikro Arabic Language and Consultancy. People doing something because of them feel motivated by some reasons. Motivational factors which influenced the Arabic performance in term of Grade Point Average (GPA) are the main focus in this study. The factors involved based *Self-Determination Theory*; *Intrinsic motivation, Extrinsic motivation, and Amotivation*. A questionnaire consist of 46 questions from all motivation factors was taken from the suggestion of the recent studies were applied in this study. A total of 84 respondents were randomly selected from the students of Arab Mikro who answer the questionnaire and took the examination. The questionnaire was distributed directly to the respondents with the purpose of gathering the primary data. The overall findings showed that most of the respondents have good Arabic performance. The logistic regression model was created using Statistical Package for Social Science (SPSS) version 20. All the objectives achieved and several suggestions had been proposed to the related parties to ensure full attention paid towards the studies problems. The study found that only 5 variables from motivational factors had an association with the GPA. However, two of them did not include in the final logistic model since they had correlation between other independent variables. Out of 47 variables, only 6 of them were significant in developing the logistic regression model**.**

Keywords: Arabic performance, Self-Determination Theory, Intrinsic Motivation, Extrinsic Motivation, Logistic Regression Analysis.

ACKNOWLEDGEMENT

بِسْمِ ٱللَّهِ ٱلرَّحْمَـٰنِ ٱلرَّحِيمِ

"In the name of ALLAH S.W.T., the Most Gracious and the Most Merciful"

Praise to Allah S.W.T., the Lord of the universe, for his wisdom, strength and blessings. Without His Grace and Mercifulness, this report may not be completed on time. The greatest and deepest thanks to Allah, for He is the ultimate reason that this research paper can now be read by others. Peace and blessings of Allah be upon His Messenger, Prophet Muhammad S.A.W.

I am really grateful and appreciate the opportunity that I have been placed at Arab Mikro Language and Consultancy, Nilam Puri, Kota Bharu, Kelantan and I was placed directly under the founder of Arab Mikro, Ustaz Dr. Mohd Rosdi Bin Ismail. The opportunity of doing my internship at this company was really a good chance since I was the first student in Statistics field.

First and foremost, I would like to express my deepest gratitude to the founder of Arab Mikro Consultancy, Ustaz Dr. Mohd Rosdi Bin Ismail for giving me the permission to make an industrial training.

I would like to say thank you to my supportive training supervisor, Madam Nurhafizah Binti Mohd Shafie, and my generous supervisor at MARA University of Technology (UiTM), Associate Prof. Dr. Jusoh Bin Yacob for their kindness and interesting discussion from which I always benefited. All the help, support, and guidance that were given to me along the way of the semester practical training were invaluable. I really appreciated the opportunity of completing my internship

under their supervision. I gained many new experiences and learnt many interesting and treasured things during my time with them. Thanks a lot for their support and helping hands through the completion of this project.

I also want to express my gratitude of thanks to Allah S.W.T. for giving me a good health in order to complete this project. I would like to say thank you to my lecturers, Arab Mikro staff, and my friends for their supports and helps, directly or indirectly in completing this study. And also I would like to express my gratitude to those participants who had sacrificed some of their time providing information for my study purposes.

Last but not least, I would like to give my hearty thank to both of my parents for their unconditional love, inspiring support, encouragement, and positive spirit. All your supports and contributions mean a lot to me and only Allah S.W.T. can recall your kindness.

Kind regards,

AHMAD FARHAN BIN MOHD ASHAARI
