Thesis Title : The Level of Understanding of Cash Waqf among Acis  
Students at UiTM Puncak Alam

Signature of Student : .....

Date : December 2019

## **ABSTRACT**

The perception of the community has been synonymous with assuming that waqf only consists of a property that is permanent and durable. Cash waqf is a trust fund comprising the fees received by the community and is one of the alternative instruments in eradicating poverty among Muslims. However the existence of cash waqf is still a question mark by most individuals especially among teenagers and students. In this regard, this study will see how far the student's understanding of cash waqf. This study was conducted based on the questionnaire survey by respondents, which are ACIS students at UiTM Puncak Alam. There are 105 respondents who have been selected in order to complete this study. This study also analyses the data by using Statistical Package for Social Science (IBM SPSS 21). Based on the findings, it can be concluded that the level of understanding of cash waqf is at moderate level. It can also be concluded that some of the respondents are lacking in knowledge about cash waqf but they seem interested with cash waqf and they are willing to do it in the future.
