## **Acknowledgement**

In the name of “Allah”, the most beneficent and merciful who gave us strength and knowledge to complete this assignment. Alhamdulillah, first of all we would like to thank God as finally we were able to finish our assignment that have been given by great lecturer to us. This task had been done with all afford by group members even though a little bit problem were happened among us while doing this assignment. Luckily, all the problems can be settle down and we were able to adapt properly and wisely this assignment is a part of our course “Integrated Final Project” with focusing on type of building design, maintenance management, maintenance strategy, maintenance policy, planning and programme, and many more of Lembaga Hasil Dalam Negeri Malaysia (LHDNM) in Kuala Lumpur, Malaysia.

Besides, we would like to express our gratitude to our lecturer Sr. Mohd Nur Faisal Baharuddin, Pn Nur Fadhilah bt Bahardin and Pn Intan Bayani bt Zakaria who gave us this opportunity to fulfill this report without him guide our project cannot be done properly like this. They gave us moral support and guided in different matters regarding the topic. They had very kind and patient while suggesting us the outlines of this report. We thank them for his overall support. Topic that been chosen by our group are regarding the study of understanding maintenance at of Lembaga Hasil Dalam Negeri Malaysia (LHDNM) in Kuala Lumpur, Malaysia.

Finally, thank to our beloved friend that always stick together and work hard to produce a good assignment with all afford and responsibility. Hope that all afford will give a lot of benefits to us and also to our group project. Million thank also we wish to En Hafizi who is building manager in LHDNM because he helps us in doing this assignment. He always gives us ideas and comments on our project so that we can improve our project in many ways and which helped us a lot in preparing this assignment.

## **ABSTRACT**

Lembaga Hasil Dalam Negeri Malaysia Malaysia (LHDNM) or The Inland Revenue Board of Malaysia (IRBM) is one of the main agencies under the Ministry of Finance who is responsible for collecting and administering the state's direct taxes. IRBM or LHDN was established in accordance with the Inland Revenue Board of Malaysia Act 1995 to give it more autonomy especially in financial and personnel management as well as to improve the quality and effectiveness of tax administration. Planning and scheduling is one of the fastest and most effective investments for this organization make to improve productivity and availability. The building maintenance planning in this building using well-functioning maintenance organization and scheduling to work many other systems to work well. Most importantly equipment inspections through preventive maintenance, technical database such as bill of materials, work order history, and standard job plans. Maintenance spare part stores is function well.
