Tuan/Puan,

TAJUK PROJEK DANA KECEMERLANGAN KATEGORI (C) : "USING THREE LAYER MODEL (TLM) IN WEB FORM DESIGN: WeFDc CHECKLIST DEVELOPMENT"

Dengan hormatnya perkara di atas adalah dirujuk.

Sukacita dimaklumkan bahawa Mesyuarat Jawatankuasa Penyelidikan Dana kecemerlangan Kampus Kedah telah meluluskan cadangan penyelidikan yang telah dikemukakan oleh tuan/pun bertajuk di atas dengan syarat-syarat seperti berikut :-

- i Tempoh projek penyelidikan ini ialah satu tahun iaitu bermula 1 Mei 2009 hingga 30 April 2010.
- ii Kos yang diluluskan ialah sebanyak RM 5,000.00 sahaja.

ABSTRACT

Since web application forms become as one of the major sources in retrieving information especially in e-government system, it is important to design web forms that can give good experiences to users. For the reason, the research presented in this report produced a design checklist (WeFDeC) conforming to task-based form guideline of TLM model, studied how WeFDeC checklist be applied as guidance in designing a better web form and investigate whether the selected local government form conform to WeFDeC checklist. The methodology consists of; develop checklist based on TLM guidelines, select three Malaysia government web forms, validate WeFDeC checklist and compare the forms with WeFDeC checklist. Compared results of pre-test and post-test showed that WeFDeC checklist able to provide guidance in developing web forms. The study on the selected government forms suggests that the forms did not meet TLM model guidelines and need improvement. Continuous studies on the government form could ensure of effectiveness and usability of the forms. For further work of WeFDeC, the measurement, reliability and effectiveness shall be tested with other web form design checklist and to mobile forms.
