Programme Coordinator : _____ Dr. Norainah Abdul
                                              Rahman

ABSTRACT

Traffic congestion give causes by heavy traffic or pack of vehicle at the road that usually happened to urban area that connected with highway. Therefore Intersection of Jalan Paip is connected with Bandar Saujana Utama and usually while peak hour there is the traffic became heavy happen in every evening on every weekday nor weekend. This issue could be identify after realise the surrounding of road was connected with a big urban area which is Sungai Buloh. It will know was a central business district and connected road to other urban area such as Duke Highway, Guthere Highway and North South Highway. The goal of this study is to decrease traffic congestion issue in study area that causes by many of vehicle with manage the traffic countdown and that lead to cause of it. A set of data of respondent to 30 questionnaire was given to people who live in Bandar Saujana Utama and was installed using statically techniques. From the observation and the result show that the traffic was heavy based on the data from traffic counting to identify heaviness of traffic in study area. The data from questionnaire show majority local people use jalan paip intersection for various of reason and it connected with Highway.

ACKNOWLEDGEMENT

بِسْمِ اللهِ الرَّحْمَنِ الرَّحِيمِ

Praise be to Allah SWT who gives the blessing, ease and strength to complete through my research work to complete the final year project as one of the requirement to accomplish this individual assessment for the course work code TPS352 Planning Project Paper. I had finally managed to finish this project with great enthusiasm and determination.

Therefore, i would like to express my deepest appreciation to Dr. Suharto Bin Teriman because always contribute in give suggestion for improvement for this research and help me in coordinate.

Last but not least, big thanks to our classmates for giving their valuable comment and suggestion on this assignment, which gave us an inspiration to improve our works. We also thank to our parents for understanding and always support us.
