ACKNOWLEDGEMENT

First and foremost, be thankful to the divine, almighty Allah S.W.T as I was able to complete the final year project. Secondly, I would like to express my deepest gratitude to my supervisor Dr Kamariah Abdullah for guiding, assisting and most importantly, positive feedback from her in the process of completing this study.

I would also like to thank my family members for their support during this research study. Without their support, the final study may not have been successful. I would also like to thank my colleagues and for helping me to complete this final study.

In addition, special thanks to this final study coordinator, Dr Nor Eeda Binti Haji Ali and Head of Department, Dr Norainah Abdul Rahman for giving me the opportunity to take this final year study.

Thank you.

ABSTRACT

Public facilities are an important element in the management of leisure and recreation. This is important to avoid various problems that may arise due to lack of public facilities. In addition, this research is to improve the public facilities and the needs of the community at Recreational Park for a long period of time. The importance of providing public facilities for the social enhancement, intellectual and quality of life of the economy. This study was conducted at Sungai Kapeh Recreational Park, Segamat. , the issue of study area is improve recreational facilities. In fact, there are lack of public facilities and lack of activities in the study area. In addition, questionnaires are used in this research to obtain data on data collection in the study area. The questionnaire are distributed among 52 respondent of park users. Other than that, the data also collected through survey form and observation. The results showed that public facilities are essential for the convenience and comfort of the community. Public facilities must be maintained and monitored by the authorities in order to avoid damage by the users and for long periods of time. The proposal to solve the problem in the study area is to improve existing public facilities, while the second proposal is to provide more facilities and more activities in the study area to attract visitors to come.
