ACKNOWLEDGEMENT

In the name of Allah, the Compassionate and the Most Merciful. Praise to Allah the Al Mighty for giving me the opportunity, patience and ability to complete my final year study in order to fulfil my study requirement. I am glad that able to finish my final study even though have many challenges to finish it.

Next, my deepest and heartfelt appreciations go to my supervisor, Dr Norainah Abdul Rahman for her professional input, guidance, patience for showing me the way throughout this study. I also feel grateful to have a good supervisor that can understanding and provide a guideline and gave a full knowledge in my final year study.

Other than that, my appreciations also go to our coordinator project Dr Nor Eeda haji. Ali and Miss Ana Kashfi Muhammad for giving a guideline to prepare a good final study outcome by following standard that had been assigned and teach how about the format to prepare this final study, the content of this research and other.

Finally, I would like to thanks and give a huge appreciation to my family and friends that give a moral support, motivated and encouragement to keep finish my final year study.

ABSTRACT

Public facilities are important element in residents' area. The lack and dissatisfaction of public facilities can affect many things in the daily life of residents. All the public facilities must follow the guideline. Placement and location of public facilities are important to the residents. Provision of public facilities must be a comfort and safety, and strategic location, it can encourage social interaction to interact with the community and most important is public facilities must be located with walking distance and residential area safe from traffic. The aim of this study is to know the satisfaction of residents on public facilities at Bandar Universiti Seri Iskandar Perak also to recommendations the suggestion on improvement public facilities at residents' area. All the suggestion is based on the observation and questioner that have been collected.
