JUNE 2017

ABSTRACT

Universiti Teknologi MARA (UiTM) industrial training are there to provide students with the necessary practical exposure and skills and assist the students in working environment and gain knowledge while undergo industrial training. All diploma students are required to undergo industrial training for 8 weeks from 17 April 2017 until 9 June 2017 as part of their subject to complete 3 years course for Diploma in Civil Engineering. The attachment will be during the semester 5 break. During 8 weeks' periods of training, students will be supervised and monitored their training by qualified supervisor. For my industrial training, I did it at Jabatan Kerja Raya Wilayah Persekutuan Putrajaya (JKR WPP) which situated at Level 3, block C7, Parcel C, 62582 Putrajaya. In JKR WPP only doing maintenance work for the all government building in Putrajaya. In this company I was placement in Zone 2 department which is for civil maintenance. Last but not least, the industrial training provides exposure for real life work and internships, career option with different work environments, exposure to latest technologies that are currently being used by the relevant industry.

ACKNOWLEDGEMENT

In the name of Allah, the most compassionate and merciful. I thank to Allah for Allah for giving me time and chance to take diploma in civil engineering in UiTM Pasir Gudang. Other than that I really thankful to Allah because giving me time and a good health to finish my eight (8) week of industrial training and with that I can finally write up this report to share all of the knowledge and experience that I have gain throughout this industrial training.

Firstly, I would like to offer my sincere gratitude to my family who are support of every things I do while going through this industrial training. There are the faithful supporter since my childhood up until this day. I would like to express my deepest appreciation to my supervisor, Encik Mohd Athir Bin Kamaruddin and all of the Jabatan Kerja Raya Wilayah Persekutuan Putrajaya staff who guide me since the first day of my internship until the last day of my internship. They are very helpful to answer my question that I asked them and bring me to the JKR WPP site.

Then, thank you to my faculty supervisor, Dr. Aruan Efendy Mohd. Ghazali who come to evaluate of my industrial training in the last week of the industrial training. I would like to give a special thank you to Encik Mohd Firdaus Bin Mohd Akhbar as coordinator industrial training who are really patient to give me advice and answer all my question regarding industrial training. Last but not least, thank you to all of my friend who help me while undergoing this industrial training.
