ABSTRACT

The purpose of this study is hoped to give contribution to the reader that they can know the structure of the song in terms of rhythmic pattern, melodic outline and contour. This research may be valuable for those who want to know deeper than their knowledge in understanding of rhythmic patterns, melodic outline and contour. The primary source for this study is from the analyzing the score by way transcribe the song. The findings shows that the song mostly use a simple repetitive rhythmic pattern but by using the technique of melodic embellishment and combination of several type of contour make the song more interesting and easy to remember.

It can be a guide for composition students to expand their creativity in terms of music theory wise and writing a clear and creative line for the melody.

ACKNOWLEDGEMENT

First and foremost, all praises to God for the guidance, strengths, and His blessing in completing the research successfully. We are grateful to God for establishing us to complete this research.

We would like to express our appreciation to our supervisor Mr. Mohd Adam Masumi for his willingness to his time, patient guidance, and useful critiques for this research. Your warm encouragement and thoughtful guidance has been a great motivation for us. We are very grateful for his support and ideas.

We would also like to give our sincere gratitude to other lecturers who have been mentoring us throughout the Degree program. Many people, especially our classmates and team members itself, have made valuable comment suggestions on this research which gave us the inspiration to improve our research. We thank to all the people for their help directly and indirectly to complete our research project.
