INDUSTRIAL TRAINING REPORT  
ECM376

FATIN HAMIMI BINTI SAIFUL AMRI  
(2016472086)

JULAI 2018

## ABSTRACT

This report is set out to give the reader full information about my industrial training in Jabatan Kerja Raya (JKR) Segamat, Johor. Industrial training is one of the compulsory curriculums in Universiti Teknologi MARA Cawangan Johor Kampus Pasir Gudang which students need to complete whether in consultant, construction or Government Company. This course is sets up for student in order to give them experience and gain knowledge in working environment before going through the real working life. My industrial training is at Jabatan Kerja Raya or known as JKR which provide maintenance and construction to the public sectors in Malaysia. In Jabatan Kerja Raya, I have been send to Facilities Department and Road Department. At this branched, I have been assigned to a lot of site project such as repairing works, installation works, regulate and resurface road works. To sum up, I had learnt on the road treatment, sequences and method to repair the road which is the CIPR treatment. During my placement, I have learned a lot new knowledge about road maintenance and safety. These knowledge are useful for me in future and gives me a lot of advantageous to prepare myself for my future career. Last but not least, in this report included the introduction, brief background about this company, task, recommendations and conclusion in details during my industrial training in JKR Segamat.

## ACKNOWLEDGEMENT

In the Name of Allah, the Most Beneficent, the Most Merciful. All praised to the Prophet Muhammad SAW. Firstly, thankful to Allah SWT for gave me this great chance to go through industrial training in Jabatan Kerja Raya (JKR) Segamat and finish it successfully. First and foremost, I would like to thank my industrial supervisor, Puan Iza Iffazun bt Mohamed Ibrahim and Puan AIsyah Nadhrah bt Abdullah for the guidance, information and knowledge during completing my training in JKR. Besides from that, I also want to thank to the District Engineer at JKR Segamat, IR. Azman b. Ismail for the knowledge, chances and supports. Apart from that, I also want to convey gratitude to all the staffs and technicians here for their kindness in helping me while completing my industrial training. In addition, it is important to have teamwork during my training and here I really want to thank my colleagues for their kindness, exchange ideas and knowledge even though we came from different universities. However, there were some colleagues from the same Uitm as mine, which is Uitm Cawangan Pasir Gudang. Then, I want to convey my appreciation to my Universiti Teknologi MARA Kampus Pasir Gudang Johor's lecturers and supervisor, En. Mohammad Hazizi b. Jamal for his willingness to come to JKR Segamat. Last but not least, I want to thank my family for their love, motivation and support during my industrial training in JKR. Thanks for all the ideas, opinion, knowledge and suggestion that have given to me in order for me to complete this report.
