## AUTHOR'S DECLARATION

I declare that the work in this thesis/dissertation was carried out in accordance with the regulations of Universiti Teknologi MARA. It is original and is the results of my own work, unless otherwise indicated or acknowledged as referenced work. This thesis has not been submitted to any other academic institution or non-academic institution for any degree or qualification.

I, hereby, acknowledge that I have been supplied with the Academic Rules and Regulations for Post Graduate, Universiti Teknologi MARA, regulating the conduct of my study and research.

Name of Student : Norsakinah bt Abdul Wahab  
Student I.D. No. : 2016490466  
Programme : Bachelor of Surveying Science and  
Geomatrics (Honours) – AP220  
Faculty : Architecture, Planning & Surveying  
Thesis/Dissertation Title : Forest Canopy Density Analysis in Kedah  
between Year 2007 and Year 2018

Signature of Student :   
Date : 28 August 2020

## **ABSTRACT**

Generally, the delineation formation between states will refer to the river alignment. According to Warta Kerajaan Negeri Kedah, the original marine boundary line between Perlis and Kedah follows the “Commencing from Boundary Pillar No.19 on the Siamese Border, as shown on Certified Plan No.867 to a pipe at the confluence of the Sungai Sanglang and Sungai Kobah, thence the centre of Sungai Sanglang downstream to its mouth. Thence, it follows a straight line towards the Northern tip of Pulau Payar to the limit of Malayan Territorial Waters”. (Warta Kerajaan Negeri Kedah,1953). But, nowadays the boundary line between Perlis and Kedah changed drastically due to long urbanisation process which has confusing many parties including residents, State Governments and Jabatan Ukur dan Pemetaan Malaysia (JUPEM) from Perlis and Kedah. There was missing boundary line between Perlis and Kedah starting from point at Pekan Sanglang to the Kuala Sanglang where the original river was replaced by the housing areas. Therefore, there is no clarify of boundary line between Perlis and Kedah. From the stated Warta Kerajaan Negeri Kedah, the boundary line between Perlis and Kedah are follows a straight line from the center of Sungai Sanglang towards Northern tip of Pulau Payar, Kedah. Unfortunately, until now JUPEM Perlis and Kedah still unclear about the point position of Northern tip at Pulau Payar, Kedah. There is no monument or Bench Mark (BM) are establish at the northern tip of Pulau Payar, Kedah because the resurvey by JUPEM Kedah and Perlis are still in progress.
