ABSTRACT

Safety management in the construction at basement of high rise building is important to workers how they know about safety during work. It can know how the department manage about safety at basement.

The chapters in this study were arranged in six (6) chapters. Introduction is literature review of safety Management in the Construction at Basement of High Rise Building. Safety Management at the basement, analysis procedure, analysis and finding and was finalize in last chapter of conclusion and recommendation. They were three (3) objectives stated in chapter 1.

The source of the study conducted by secondary data and the primary data. The methodology of the study by literature review, instrument of questionnaire to safety officer and workers.

The recommendation of the study is stated in the last chapter, from the analysis conducted. Three are 2 recommendations are stated in the study, safety officer must monitor the matter as it involved the safety workers. Safety meeting must be made to each site as it is suitable with safety management guidelines for the basement construction, notice board must always upgrade because notice board important for workers knows the current issues of the problems and can make

workers know about safety management, the safety officer must monitor the workers follow the procedure and policy safety and health during do their work at basement

ACKNOWLEDGEMENT

All praise be to Allah, The All Mighty, The Dispenser of Grace

First and foremost, I would like to express my sincere appreciate and gratitude to my supervisor, Pn Rohimah Khoiriyah Mohd Arifin Harahap for her inspiring concern, advice and motivation. Without her warm and continuous support and interest, this dissertation would not have been the same as presented here.

My special thanks to all participants at site officer for all case studies, give me information about safety, for treats me very well and I spend many great times with them during this period.

Lastly, I am grateful to my parents and friends for all of their support. They may not recognize their contribution during this period but for what I have received I am truly thankful
