# INTRODUCTION TO INDUSTRIAL TRAINING

## 1.1 Introduction

Practical training or industrial training is a mandatory course for all Diploma students of Planting Industry Management. It is requirement to fulfill the course in order to complete the diploma as well as graduate from the university. The training refers to work experience that is relevant to professional development prior to graduation. For Planting Industry Management students, a 7-weeks period is allocated for training at location chosen by students themselves.

## 1.2 Objectives of Industrial Training

The objectives of industrial training are as follow:

- Apply theories learnt in classroom in practical environments
- Improves both soft and hard skills
- Improve communication and management skills
- To gain working experiences
- To improve teamwork
- Produce a professional, independent, knowledgeable DPIM student to develop agriculture to become one of the competitive sectors and to serve as a major contributor to the national economy.

## INTRODUCTION TO SOLID PALM OIL MILL BHD MIRI

Solid Palm Oil Mill Office

Its total assets decreased by 7.65% over the same period. The net profit margin of Solid Palm Oil Mill Berhad increased by 0.92% in 2017. The Headquarters is at 101km, Jalan Miri-Bintulu, Coastal Road 98000 Miri Sarawak.

## TASK ASSIGNED

### 3.1 Introduction

Throughout the 7 weeks of industrial training period, the students assigned into 7 stations such as nursery, estate, grading station, weighbridge station, palm oil mill station, office and laboratory station. Besides that, the students also have learned to improve their soft skill as well as communication skills when dealing with superiors. In this chapter, we will cover all aspects of work during ours training coupled with photo evidence and other relevant materials.

### 3.2 Tasks and Assignments

The sub-section is divided into 7 parts, each representing one unit. This will contain all tasks given to the students with picture as evidence.
