## **ACKNOWLEDGEMENT**

As a matter of first importance, I might want to acclaim to Him, The Almighty who give me a brilliant opportunity to participate and pick up the experience through this practical training program. This entry level position program is obligatory to all understudy student of Universiti Teknologi MARA (UiTM), Seri Iskandar campus. Here, I can pick up a genuine work encounters and extend my insight and knowledge through this 16 weeks of practical training period. I would like to express my deepest gratitude and appreciation for the opportunities granted by Stagno Tech Sdn.Bhd where the industrial training was undergoing for 16 weeks effectively from 1<sup>st</sup> March 2018 until 29<sup>th</sup> June 2018.

In addition, I would like to express my sincere gratitude and appreciation to Mr Zulkifli bin Yeop Ismail as the site engineer and also for Mr Zulsyahmi bin Rusli as my supervisor for the guidance as well as his willingness to share his vast experience apart from providing suitable learning environment for me to gain many valuable experience and knowledge. I have learnt new things and increase numerous important recollections and information that could not obtained in classes.

Also thank you to Sr. Dr Mohd. Fadzil bin Mat Yasin as my responsible supervisors for his guidance and continuous reminder instead of providing comprehensive support, secure, providing unlimited resources and guidance for me to use throughout the internship period to ensure my industrial training run smoothly.

## **ABSTRACT**

Industrial training is a key component of the learning curriculum of Universiti Teknologi MARA (UiTM). Students are required to pass the industrial training prior to the award certified in a particular organization for one semester to expose them to the working environment.

The training also embed moral qualities in themselves as a student of the nature of trust and responsibility in carrying out the duties and confident in making a decision. During industrial training, the students are faced with many challenges and problems that need to be identified. Therefore preparation, both mentally and physically to undertake and complete the task.

In addition, training is also required to be carried out for all students in last semester in Diploma of Building Surveying on the year 2018. This training runs for 4 months from 1<sup>st</sup> March 2018 until 29<sup>th</sup> June 2018.

I was placed at Stagno Tech Sdn.Bhd. During this training, I was given the opportunity to follow the site supervisor to see the environment on site and others. During industrial training, I was given for 9 hours a day, from 8:00 am right up 5:00 pm daily from Monday to Friday
