## **ABSTRACT**

Purpose of this subject, Practical Training Report is to ensure that I, as a student apply what we have learn since first semester in Diploma in Building Surveying. I have to apply it in the practical training period especially when on construction site.

In order to fulfil the requirement of this subject, I have choose Public Work Department (PWD), Kubang Pasu, Kedah as my Practical Training Organization. It located at Pejabat Jurutera Daerah JKR Kubang Pasu, 06000, Jitra, Kedah. It was a government building with 2-storey high. It is near to Balai BOMBA, hotel and library.

In the nutshell, by doing this practical training I have gain many information and knowledge about construction field as I have join the staff to the site visit at the construction site and see the method of the construction and the problems that occur at the site. It is very challenging and new experience for me. I hope that this practical training report is followed the requirement of this subject.
