ABSTRACT

Alhamdulillah, lastly I was finished the task of BSB351 Practical Training. My position during as a practical training is as assistant Quantity Surveyor a bit little this was helped me in completing the final task last for final year. Learning the part of the construction field during the training give me a spirit to know more about this field. Before this I was learn the theory about the building which is about how to maintain completed building from the aspect of maintenance management, maintenance policy building maintenance strategy, and financial aspect for their maintenance work. For this time my experience as a assistant qs give some twists in the field of work as a building surveyor. This paper works presents the result of the studies about Installation Tiling Works in a Building that performed at services Apartment Almyra Resident at Bandar Bukit Mahkota Bangi. In the research and study, the interview is done by me during the period of 4 months training along with guide by Miss Hanis Faliza as a project QS for that project. I was given guidance in getting information and collecting data until the completed works. The result from my research about tiling installation works in a building at Almyra residence which I was learn the problem occurs during installation works and how to overcome that problem. The conclusion is the tiling works is important in building for the comfort to the occupant besides give an esthetic value. Installation of tiling in a building is a common things that parallel with advances in construction technology nowadays.

ACKNOWLEDGEMENT

With deep gratitude, I would like to thank those who helped in setting up this assignment. First and foremost, I would like to thank my parents that always give support in terms of finance and spirit until this day during I was ups and down in process completion of this task. Do not forget also to friends and people who constantly inspire and share ideas in completing this task.

Secondly I would like to express my gratitude to the company Kenwingston Sdn Bhd for allowing me to complete my task for last year student which is industry training in your company. I would also like to thank the project team of IOI 669 Almyra Residence Bandar Bukit Mahkota, Bangi especially to my teammate contract department. Also Thank you infinitely I dedicate it to my supervisor Miss Hanis Faliza Zubir (Project QS) and Mr. Mohd Azhan Yusof (Site Safety Supervisor) who never tired and stingy in sharing knowledge in the field of construction. They has helped me in completing the work and gave valuable guidance to me practice in a real job.

Lastly, thanks to my supervising lecturer Sr.Dr. Mohammad Ridzuan Yahya for provided tutoring and guidance in preparing this report.

Thank you from my deepest heart.
