## ACKNOWLEDGEMENT

With the deepest gratitude, I would like to thank every person who came into my life and inspired, touched and illuminated me through their presence. First and foremost, I would like to thank my family for their unlimited support. I'm very much grateful to have them around me through ups and downs upon completing this report and during my practical training.

Secondly, lots of appreciation to JUBM Sdn Bhd for accepting me as their practical student and giving me once in a lifetime chance to work with them. Be working with the best team is very priceless and definitely helping me in the real working environment in the future. The 4 months experience can never be compared with any other company that I had ever worked with.

For generously sharing their wisdom, I pay homage to head group team, Mr Lim Soon Chong, supervised by Mrs Foo Mei Yeen and Tan Zhong Xian (Anthony), Mr Izzudin bin Ismail and all staffs in technical department especially from group 1 for their kindness to lead and showing the correct way of doing all the works related to this report and without hesitation giving information needed. Moreover, I would like to thank to my precious friends for the stressful yet exciting brainstorming and knowledge share sessions and also other who involved whether directly or indirectly making this report a success. From the bottom of my heart, I thank everyone who involved from the beginning until the end and hopefully this report can be a reference for those who needed.

Thank you very much.
