PREPARED FOR:

Ir. MUHAMMAD MUNIF ESA

MAINTENANCE ENGINEER

KUALA LUMPUR-KARAK TOLL HIGHWAY

MALAYSIAN HIGHWAY AUTHORITY

A C K N O W L E D G E M E N T

Warmest thanks to Puan Rohani Ibrahim, my dearest thesis advisor, for her intangible advises and guidance in completing this study on Traffic Safety of the Kuala Lumpur-Karak Toll Highway.

I owe special thanks to Ir. Abd. Adzim Muhammad, the Central Region Director of Malaysian Highway Authority, Ir. Shukor Mohamed, the Central Region Deputy Director (Operation), Encik Tan Eng Cheong, the Finance Deputy Director (Toll Operation), Puan Lee Choi Chew, the Senior Accountant of Finance Department and Ir. Mahdan Ahmad and Encik Azman, the Civil Engineer of the Central Region of the Malaysia Highway Authority for their innovative ideas and valuable information in finishing this thesis.

I wish to express my great appreciation, admiration and respect to Ir. Muhammad Munif Esa, the Maintenance Engineer of the Kuala Lumpur-Karak Toll Highway, for his infinite patient supervision, constructive criticism, effective discussion and utmost helpful until this thesis completed.

A B S T R A C T

'Killer Road' or 'Death Highway' is a nickname for the Kuala Lumpur-Karak Toll Highway given by the users since this highway killed the highest road accident victims in Malaysia every year.

In order to decrease the high accident rate of the highway, the Malaysian Highway Authority tries every effort to make this highway safe to be used. The traffic safety facilities and equipments are the tools to be enhanced, besides the widening and upgrading of the road pavement.

As to locate the causes of traffic accident on the Kuala Lumpur-Karak Toll Highway, a survey on the traffic safety of the highway had been conducted.

Based on the research, the most suitable solutions to improve the safety factor of this highway towards providing a better, efficient and a safe highway for all traffickers had been found out.

ACKNOWLEDGEMENT	i
ABSTRACT	iv
TABLE OF CONTENTS	v
LIST OF TABLES	xix
LIST OF DIAGRAMS	xxi
LIST OF FIGURES	xxii
<u>CHAPTER ONE</u>	
INTRODUCTION	
1.1 The KL-Karak Toll Highway	
Background	1
1.2 Purpose of Study	2
1.3 Objectives	3
1.4 Problem Statements	4
1.5 Hypothesis	6
1.6 Literature Survey	8
1.7 Scope and Limitation	10
1.8 Methodology	11
1.8.1 Primary Data	
1.8.1.1 Observation	11
1.8.1.2 Survey	11

1.8.1.3	Interviews	12
a.	Formal Interview	12
b.	Informal Interview	14
1.8.2	Secondary Data	15
1.8.2.1	Books	
1.8.2.2	Annual Reports	
1.8.2.3	Handouts	
1.8.2.4	Phamplettes	
1.8.2.5	Reports	
1.8.2.6	Newspaper Cuttings	

CHAPTER TWO

OUTLINE OF SAFE HIGHWAY CHARACTERISTICS

2.1	Geometric Design	
2.1.1	Purpose and Objectives	16
2.1.2	Application of Standards	17
2.1.3	Types of Facilities Covered	
2.1.3.1	Road Classification	21
2.1.3.2	Access Control	23
2.1.4	Vehicle Design	24
2.1.5	Speed Design	27
2.1.5.1	Operating Speed	28
2.1.5.2	Average Running Speed	29
2.1.5.3	Gradient Effect	30
