## **ACKNOWLEDGEMENT**

Alhamdulillah with His blessing, I have done my report with success and complete. First of all, I would like to acknowledge thanks to Mr. Ma Lam Fatt and En. Subri Bin Abd Latiff, my dearest supervisor for my Industrial Training, and also supervisor from my university, Sr. Dr. Alia Abdullah Saleh as they were guiding me from the very first step until the end of this training.

Apart from that, I would like to express my appreciation to the organization, Malaysia Marine and Heavy Engineering (MMHE) for their kindness and their trust giving me chance to have my practical training in here. Besides, I would like to extend my gratitude too, to Mr. Ma Lam Fatt, as Senior Project Manager, for his cooperation and endless patience in letting me “shadow” him around during fieldwork.

And at the same time, I would like to express my deeply thankful for Mr. Subri Bin Abd Latiff , as Land Surveyor who had taken a lot of effort to go through my daily site report and answering all by doubtful concern about field work. Never forget too, I would like to give my heartily and thousand thank to En Shaiful Bin Abd Wahab respected Site Supervisor. They didn't bother answering each of my questions even when they were busy with their work.

Finally, I would like to express my heartfelt gratitude to my family, friends and also lecturer for their support, constructive suggestion and also criticism.

Thank you.
