## **ABSTRACT**

Generally, report some practical training is to tell about all related to the construction, types , materials used in the construction of a ( structure stage) , the construction of the wall and foundation construction musolla . This report is available from day to day, and for the past 5 months I underwent practical training at Yayasan Pahang . This report began with a narration about the company background and department background. Based on the experience I have gained, the investment department has a part of the development of acting in all projects related to the foundation Pahang and its subsidiaries. Besides that, the use of technology brought in from USA such as aluminum and plastic formwork has helped to save the cost of building this musolla .Normally,it use for the bigger construction at a Malaysia. Besides that, also included a report on the problems that occur in the course of construction of the walls and the foundation, but the solution has helped solve. And in conclusion, some practical report tells everything related to the construction of walls and foundations as well as the use of technology that has been spent in the construction of the Mosulla, Tanjung Lumpur, Kuantan.

## **ACKNOWLEDGEMENT**

Bismillahirrahmanirrahim

First and foremost, we would like to thank to God because of His bounty we successfully completed the course work assigned to us. Without His consent, we cannot finish our Practcal Report (BSB351) report successfully.

Besides thanks goes to SR . Mohamad Ridzuan bin Yahya as practical supervisors who have helped in terms of guidance, guide , providing information and guiding me throughout my complete report.

Besides thanks also goes to my parents that en . Abdul Halim b . Young and pn . nazura wan wan mi Hamid and members of my family . thank you for your encouragement and moral support and financial support and prayers that have been extended to me during my practical and complete report ini.tanpa practical encouragement and support and prayers given , I was not able to complete this practical report successfully.

In addition, my thanks goes to Mr . IR Onn bin Abdul Rani who acted as my supervisor during my practical Pahang Foundation . Thanks for his willingness to have a lot to guide me , to give a variety of
