ACKNOWLEDGEMENT

Praise be to Allah, the Merciful, and the most gracious.

I want to thank you for guidance, advice and assistance provided during the training period by the following groups of individuals amazing. First of all, I want to thank Datuk Haji Khamis Bin Haji Abas for the opportunity given to control my training in chastity organization. The professional team of antiquities unit led by Puan Fadilah binti Md Salleh and assistant of conservation units that they plan Puan Latifah binti Abd. Latif are many writers in carrying out assigned responsibilities. They have helped the writer in learning and developing my understanding, knowledge and a sense of real-time project, and the theory involved in the rehabilitation of heritage buildings. They are also responsible towards streamlining and evaluate writers' workout.

I would also like to thank ALL the UiTM lecturers that have taught and nurtured me in becoming a better student and person. I would also like to extend my deepest appreciation to the lecturers who are directly involved during my training stint. To Encik Mohd NurFaisal bin Baharuddin, Supervising Lecturer and Practical Training Coordinator, Puan Norehan Mohd Noor, Visiting Lecturer, I value the time, effort, encouragement and ideas that they have contributed towards the successful completion of my training, this report and the valuable knowledge that have been shared over the last few semesters.

Last but not least, my special thanks to my beloved parents for their sacrifices over the years from being a toddler till an adult.

Thank you so much.

ABSTRACT

Historical mosque is one of the most valuable historical and aesthetic value. Most tourists would visit the houses of worship to see the architecture of the past. To restore this house requires a large allocation also experienced workforce, so this report will explain sundries about defects that occur and also remedies adopted by the contracting parties. This report was conducted to enlighten readers about the common defects and remedies that different from others buildings because of the ages of the buildings and the materials usage. To gain information about this title report, the writer has done a few ways to accumulate data and knowledge about the title. The writer did an observation by himself at the site and referred the books from conservator and the writer also did a few interviews with the site personnel. The title of this report is The Common Defect Occurs On Historical Mosque that the writer used the information from Masjid Lama, Parit Melana, Alor Gajah, Melaka as a case study.
