DATE OF SUBMISSION : NOVEMBER 7TH, 1994

## ACKNOWLEDGEMENTS

Bismillahirrahmanirrahim. I am very grateful to Allah Subhanahuwataala, with all Your blessing, allows me to complete this project paper although there are some problems and most of the data are limited to the reference on the secondary sources.

Here, I would like to give the highest appreciation to my advisor, Puan Harlina Suzana Jaafar, for all your support, advices and guidance in making this study achievable.

Thank you to Encik Asri Khayan, Assistant Economic Affairs Officer, Administration, Finance And Central Services, Malaysian Industrial Development Authority (MIDA), Puan Tusiah Hj Rashikin, Assistant Economic Affairs Officer, Planning And Research, Computer Department, MIDA and Encik Zakuan Hj. Ghazali Computer Programmer, MIDA for sacrificing a lot of their time for interviews and giving all the informations regarding the study and also for their cooperation. I would like to express my warm appreciation to individuals at Ministry Of International Trade And Industry (MITI), in providing related information and data for the purpose of the study.

## EXECUTIVE SUMMARY

" In trying to redress the racial imbalance, it will be necessary to concentrate your efforts to the Malays, to bring out more Malays entrepreneurs and to bring out and to make Malays millionaires, so that the number of Malays who are rich are equals to the number of Chinese who are rich "

Based on the above statement by our Prime Minister, Dato' Seri Dr. Mahathir bin Mohammad, it is important for the Malays to increase their efforts in order to compete actively with other races in Malaysian economics. Hence this study is carried out to provide a basic view on Bumiputera investment and equity participation in manufacturing sector in Malaysia.

The study is done by analysing the trend of Bumiputera investment in manufacturing sector for the period of 1984 to 1993. The effects of inflation rate is measured in order to identify its relation to Bumiputera investment in manufacturing sector. Method of analysis will employ a Multiple Regression Model in order ascertain whether there is a positive relationship between Bumiputera investment and total investment in manufacturing sector for the period of analysis. The trend is also related to Government intervention as it is the main issues contributing to the trend of Bumiputera investment in manufacturing sector in Malaysia.

## TABLE OF CONTENTS

Table Of Content	i - iv
Acknowledgements	v - vi
List Of Tables	vii
List Of Figures	viii

### CHAPTER 1 Page

1.1 Introduction	1
1.2 Problems Statement	3
1.3 Research Objectives	4
1.4 Literature Review	5
1.5 Methodology	8
1.5.1 Primary Data	8
1.5.2 Secondary Data	8
1.5.3 Data On Bumiputera Investment	9
1.5.4 Data On Issues	9
1.6 Methods Of The Study	10
1.7 Scope And Limitation	11
1.8 Organization Of The study	11

### CHAPTER 2

2.1 Introduction To The Manufacturing Sector	13
2.1.1 Components/Industries Of The Manufacturing Sector	13
2.1.2 The Importance Of The Manufacturing Sector	15

2.2	Development And Growth Of The Manufacturing Sector - Malaysian Experience	
2.2.1	Before 1990	16
2.2.2	1990 To Date	18
2.2.3	Performance Compared To Other Sectors	19
2.3	Functions Of Authorised Agencies	20

CHAPTER 3 OVERVIEW OF BUMIPUTERA INVESTMENT IN THE  
MANUFACTURING SECTOR IN MALAYSIA

3.1	Bumiputera Investors	22
3.2	Types Of Investment	23
3.3	Equity Policy	25
3.4	Incentives / Facilities In The Manufacturing Sector	27
3.4.1	General And Special Incentives	27
3.4.2	Financing Facilities	28
3.4.3	Special Financing Scheme For Bumiputera.	29
3.4.4	Technical Assistances.	32
3.5	Experiences From Implementation Of New Economic Policy ( NEP ) 1970 - 1990	34

CHAPTER 4 ANALYSIS AND METHOD OF HYPOTHESIS

4.1	Sources Of Data	37
4.1.1	Methodology	38
4.1.2	Scope Of The Analysis	39
