## **ABSTRACT**

This is a comprehensive study on Internet addiction among students of Faculty of Computer and Mathematical Sciences in UITM Seremban 3, Negeri Sembilan. The research was done to explore the prevalence of Internet addiction and the significant factors that contribute to it. As the researchers are studying in UITM Seremban 3, it is convenient to use UITM Seremban 3 students as their sample. 306 respondents from different programme of FSKM were taken to complete this research. The method used in this research is descriptive and logistic regression, which then will be analyzed by using SPSS. It is found that 189 respondents were addictive. The findings revealed that those students who have highly chance to be addicted were from age between 19 – 22, male gender and programme study CS 112, CS 241, CS 247 and CS 248. Awareness on Internet addiction and their bad impact towards future life should be spreading to everyone or surroundings so, the addicted person can manage to have a good and better lifestyle.

## **ACKNOWLEDGEMENT**

IN THE NAME OF ALLAH, THE MOST GRACIOUS, THE MOST MERCIFUL

Firstly, I am grateful to Allah S.W.T for giving me the strength to complete this project successfully. Without His numerous blessings, it would not have been possible to finish this report.

I would like to express my gratitude to my group members for their ideas, time, effort and cooperation to completing this research. I also like to take this opportunity to thanks my research supervisor, Madam Zuraida Binti Jaafar for her support and useful advice during my research. Without her guidance and helpful feedback from other lecturers, it is impossible to finish this research.

Thanks to students of Faculty of Computer and Mathematical Sciences in UITM Seremban 3 in Negeri Sembilan who are willing to answer our questionnaire. Not forget thanks also to our staff members from Academic Affairs Division who provided the data that being used in this research. Lastly thanks to my family who stay by my side and give support, love and care.
