Abstract

Mainstream media has communicates many government information to public ever since before our country independent. Mainstream media play important role in Malaysia as it is the main medium used by government in communicating its programme to public. Besides that, government also has control over mainstream media in Malaysia. This is because government need strong medium to link them with the public. This research studies the effectiveness of mainstream media in communicating government programme. A random sample of 201 people who live in Beringgis, Papar will become our respondents in order to obtain answers for the questions, problem and issue in this research.

TABLE OF CONTENT

CHAPTER 1: INTRODUCTION

1.1 Introduction	1
1.2 Problem Statement	4
1.3 Research Objective	5
1.4 Scope of Research	6
1.5 Definition of Term and Concepts	
1.5.1 Mainstream Media	7
1.5.2 Government Programme	8

CHAPTER 2: LITERATURE REVIEW & CONCEPTUAL FRAMEWORK

2.1 Literature Review	
2.1.1 Mainstream Media	9
2.1.2 Government Transformation Programme	15
2.2 Conceptual Framework	25
2.2.1 Meaning of Independent Variables	
2.2.1.1 Pattern	26
2.2.1.2 Awareness Level	27
2.2.1.3 Respondents	27
2.2.2 Meaning of Dependent Variable	
2.2.2.1 Effectiveness of Mainstream Media	28

CHAPTER 3: RESEARCH METHODOLOGY

3.1 Research Design	29
3.2 Population and Sampling	
3.2.1 Sampling Technique	29
3.2.2 Sample Size	29
3.3 Instrumentation and Measurement	
3.3.1 Instrumentation	30
3.3.2 Measurement	30
3.4 Unit of Analysis	31
3.5 Data Collection	
3.5.1 Primary Data	31
3.6 Data Analysis	
3.6.1 Descriptive Analysis	32
3.6.2 Inferential Analysis	32

LIST OF TABLES

Table 4.0: Reliability Test	33
Table 4.1: Profile of the Respondents	34
Table 4.2: Descriptive Statistics on the Pattern of Mainstream Media Usage	36
Table 4.3: The Effectiveness of Mainstream Media in Communicating Government Programme	38
Table 4.4: The Chi-Square Correlation Test of the Level of Effectiveness of Mainstream Media and Gender	40
Table 4.5: The Spearman Correlation Test of Level of the Effectiveness of Mainstream Media and Level of Education	41
Table 4.6: The Chi-Square Correlation Test of the Level of Effectiveness of Mainstream Media and Occupation	42
Table 4.7: The Chi-Square Correlation Test of the Level of Effectiveness of Mainstream Media and Race	43
Table 4.8: The Chi-Square Correlation Test of the Level of Effectiveness of Mainstream Media and Mainstream Media Prefer to be Used	44
Table 4.9: The Chi-Square Correlation Test of the Level of Effectiveness of Mainstream Media and Main Sources of Getting Information about GTP	45
Table 4.10: The Chi-Square Correlation Test of the Level of Effectiveness of Mainstream Media and Main Purpose of Using Mainstream Media	46
Table 4.11: The Chi-Square Correlation Test of the Level of Effectiveness of Mainstream Media and Receive Information about GTP through Mainstream Media	47
Table 4.12: The Mann-Whitney Test on the Effectiveness of Mainstream Media and Gender	48
Table 4.13: The Kruskal Wallis Test on the Effectiveness of Mainstream Media and Age	49
Table 4.14: The Kruskal Wallis Test on the Effectiveness of Mainstream Media and Occupation	50
