ACKNOWLEDGEMENT

Alhamdulillah, praise to Allah S.W.T our creator, for giving me the strength to prepare this final year project with all the patience and encouragement that have been motivated me to finish it. Therefore, I would like to take this opportunity to express my gratitude to those involved directly and indirectly.

First of all, I would like to express my special thanks and my sincere appreciation to my final year project supervisor, Mr Nor Hisham Md Saman, for the opportunity to conduct this research study and keep motivated and guide me to complete this final year project. Not forgetting also to the coordinator of the final study is Dr. Nor Eeda Binti Hj Ali and Miss Ana Kashfi Binti Muhamad.

I am extremely grateful to my parents for their love, prayers, caring and sacrifices for educating and preparing me for my future. I would like to say thanks to my friend and final year group project for their constant encouragement. I express my special thanks for father Shamsuri bin Imram and my mother Radziah binti Saleh Karimi who always support me with the decision I took in doing my study. Lastly, I am extending my thanks to all the lecturer of Town and Regional Planning Faculty for their kindness for support during my research project. May Allah S.W.T bless all the goodness.

ABSTRACT

The study is being conducted about the layout of industrial area at Taman Perindustrian Kinrara, Puchong, Selangor. It is inadequate for supporting facilities and buffer zone in the study area. The study covered the whole of Taman Perindustrian Kinrara, Puchong with 24.51 hacter. Literature review based on research from the internet as already stated. There are six stages in the research process, start from the background of the study, and the last is recommendations and conclusion. The methods used to carry out the study are based on the survey form and observation survey and secondary data, which is Jabatan Perancangan Bandar Dan Desa Negeri Selangor :Manual Garis Panduan Manual Garis Panduan dan Piawaian Perancangan Negeri Selangor, Edisi Kedua - November (2010). Finding from this analysis will be the basic preparation to make an appropriate recommendation and conclusion. All recommendation that has been made is to provide adequate supporting facilities aspects and buffer zone followed by the guidelines from the local authority in Taman Perindustrian Kinrara, Puchong.
