Faculty : Faculty of Architecture, Planning & Surveying
Title : The Quality Of Mosque Facilities Provision For Elderly And
Disabled (OKU) People At Seri Iskandar, Perak.

Signature of Student : 

Date : 2 August 2021

ABSTRACT

Disabled accessibility of a building is something that is very important to set up, especially in the mosque became the center of Muslim activity. The disabled are those who are less fortunate and are among those who have limited mobility caused them difficult to access to existing facilities at the mosque. However, most mosques in Malaysia do not fulfil these requirements in terms of providing facilities for the disabled people. This adversely affects them to engage in the social and economic mainstream. This study aims to identify the quality of mosque facilities provision for elderly and disable people.. This study using observation and questionnaire survey for the target respondent who stayed at Seri Iskandar. This data collection method are used to collect the data and comment on The Quality Of Mosque Facilities Provision For Elderly And Disabled (OKU) People At Seri Iskandar, Perak. The mosque involved in this study were Masjid Sultan Yussuf Izzudin Shah, Seri Iskandar, Perak Darul Ridzuan. The findings shows that the mosques is still not being "disabled friendly" where there are no facilities and special facilities accessible to people with disabilities. The recommendation of the design as proposed items at the external and internal will make the space more organized, having aesthetic value and practical for thus elderly and disabled people especially and all Muslim Ummah generally. This is will be blown up the integrity of Muslim 'Ummah', elderly and disabled people especially to achieve the real 'ummah' as a real Muslim

ACKNOWLEDGEMENT

Bismillahorrahmanirrahim

In the Name of Allah S.W.T the Most Gracious, Most Merciful. All praise is given to the Almighty for giving me an opportunity to complete this research study successfully for the six (6) months.

Firstly, I want to take the opportunity to thank to the staff in local authority which is Majlis Daerah Perak Tengah (MDPT) who had contributed to this research study by providing me some useful information. Besides, the highest appreciation and gratitude expressed to Gs. Hasnizam Ab Dulhamid, my supervisor and the Planning Project Paper Coordinator, Dr Syazwani Ahmad for giving me a lot of guidance, tolerance, supervised and remind us of the important dates during this semester and help me in learning a process to complete the study by spending her times for discussion. Without their guidance, I would not be able to complete the study on the time given.

Finally, I would like to express my very profound gratitude to my parents and family for providing me with physical and mental support in process of researching and writing this thesis. Lastly, most thankful to all my friends for supporting and encouraging me in completing this thesis. This accomplishment would not have been possible without them. All your kindness will be never forgotten. Thank you.
