ACKNOWLEDGEMENTS

This study has been materialized because of the invaluable advice , patience , encouragement and also assistance of many . To each and everyone , I extend my sincere gratitude .

Firstly , I would like to express my heartiest gratitude and sincere appreciation to my first supervisor , Prof. Madya Dr. Abu Bakar Hj. Ibrahim for his untiring effort and support upon completing this research. Next, I would like to express my greatest appreciation to Miss Jolin Norshyme Hashim as the second supervisor for her patience ,calming influence and never ending assistance which were helpful to me upon completing this study. Without their guidance, all this would not have come into reality .

I also want to acknowledge the support received from the Headmistress of Sek. Keb. Padang Midin , Kuala Terengganu , Pn. Hjh. Fatimah Ali for giving me sufficient and exclusive information about the Self Access Learning Programme .To the Head of English Panel of Sek. Keb. Padang Midin , Mrs. Seng Beng Hin , I would like to express my gratitude for allowing me to conduct this study .

My heartfelt thanks and gratitude to all the staffs especially the English teachers of Sek. Keb. Padang Midin for helping me in the completion of this study .To all the students being involved in this research , I would like to express my appreciation for giving me sufficient responses towards the questionnaires given to them .

Not forgetting to all the people involved who had kindly given a helping hand to achieve my attempt to complete this research especially my beloved family who had been so patience and understanding .

ABSTRACT

This research concentrates on the effectiveness of the Self Access Learning Programme in enhancing the performance of students in English in Sek. Keb. Padang Midin , Kuala Terengganu , Terengganu .

It tries to confirm that the Self Access Learning Programme is an effective tool in enhancing the performance of students in English especially through the various activities being conducted and also a lot of materials being provided .

Through the procedures being conducted , it was found that a total number of 90 students and 4 teachers were involved in this study . It was said that a total of 77.8% or 70 pupils agreed that the self access mode of learning is interesting and motivating to them . This means that the Self Access Learning Programme is good and sufficient to the students .

It is hoped that the Self Access Learning Programme will give a better chance to students to feel and absorb the English environment and hopefully it could help and enhance them to achieve better performance in English in future .

In conclusion , the study indicated that the Self Access Learning Programme is a successful programme and it should be implemented in all schools in the country .
