INTRODUCTION

S & S Rosselle was focused in the Rosselle drink. It was located at Lot 3022 Pekan Simpang Kuala, Jln Lebuhraya Sultan Abdul Halim, 05400 Alor Setar, Kedah. This area near to Alor Setar city. The entire infrastructure is provided by Majlis Perbandaran Kota Setar (MPKS).

Our company is a partnership company that has been started with the capital contribution:

General Manager – RM30, 000

Each Partner – RM15, 000

And with the bank loan – RM 50,000

We choose our business because the number of Malay's entrepreneur in the particular field is too small. We are encouraged to interfere in this business because we want to help our Bumiputera especially Malay in getting the product. We also want to introduce the Rosselle product which popular in Kelantan and Terengganu. In addition, this business also promising a high margin of profit rate.

Lastly, we also assume that this business can widely expanded since the business is not popular in the north area. Based on our observation, the target market came from Pekan Simpang Kuala, Kuala Kedah, Tandop, Mergong and others area.

Besides getting the customer confidence and satisfaction, business plan is prepared for many reason which it need to be done in order to control all the business activities. The purpose as followed:

- To identify and gain financial sources by the outside investment such as financial institution.
- To identify the market area, customers price strategies and the competitive condition under the business field had involved.
- To ensure the business is gain profitable continuously, this mean the profit will assist the capital circle or rotation in order to develop the business effectively and efficiency.
- To ensure the customer satisfaction.
- By committing the business plan the business in overall is able to manage the business activities as guideline or guidance in order to achieve the improvement. The business will be able to focusing on the cause or deviation of planning before condition become critical and have a time to take ahead and avoid problems before they arise or exist.
