ACKNOWLEDGEMENT

Assalamualaikum, I am so glad to see this report has been finish completely in time that has given to me. I would like to say “Alhamdulillah” to God because give me strength to do this report completely. In keeping with the style and schedule given, I follow all the need in this report. I would like to thanks and congratulate them whose get involve in process of finishing this report. First of all, I was so grateful and thanks to Allah s.w.t as I able to complete this task. I also had use full of strength and commitment to gather all the information that I have.

Firstly, I would like to thanks Ir. Haji Zahri Bin Jiman, because give me a chance to practical at JM Jurutera Perunding. Sdn. Bhd. Only God can repay your kindness. Besides that, I also want to thank to Puan Siti Nazirah Binti Abdullah (administration), Cik Tengku Nurul Aiza Binti Tuan Hamzah (engineer), Cik Norzila Binti Zainuddin (engineer), Cik Nurul Hamizah Binti Hassan (technical assistant), Mohd Radzi Bin Razali (technical assistant) and my supervisor that are Cik Nur Hafizah Binti Seman and En. Mohd Ekhsan Bin Ghazali. They always support and help me by giving his opinion, information, and always teach me. From them I learn many things. I will always remember what I’ve learned.

Secondly, I would like to thanks to both of my parents for helping in monetary and always support whatever I do. Thanks to my classmate, senior

ABSTRACT

Generally, this practical training report clarifies the information about all of the works, processes, and stage of (design process, case study: single storey semi-detach at Damansara, Selangor Darul Ehsan). This practical training is started with explanation and clarification of company background and background of project. I was involved in this project and it is not easy as it seems. Based on observation made, the project involved a very detailed of maintenance, method, stage by stage of process and the materials. This project need to be done by skilled workers and involved with a few parties. Besides that, the quality of the workers and the construction materials would be affect if they don't do proper work. Next, they must follow the correct process to make sure the project will be fine. They must give full cooperation as a team. Then, this report also explained about the materials used for the project and equipment used by the general workers. Moreover, the common problems faced involving in this project also explained in this report along with its suitable steps of solutions. As a conclusion, this practical training report can explain in details about the project (design process, case study: single storey semi-detach at Damansara, Selangor Darul Ehsan).
