## Acknowledgment

The most thankful to Allah S.W.T for giving me an opportunity to complete my report on time. This report is prepared because it was a part of our studying process where it was included in practical training.

First, I would like to give my appreciation to Delima Maya Sdn. Bhd. for their co- operation and gives me an opportunity to join this company for my practical training here. They never refuse to point me the truth when I am not able to do the work that be given. Without their help, of course I will not be exposed with the reality of Surveyor professions.

I also want to express my thanks to my supervisor Dr. Nur Azfahani Binti Ahmad, she always lends her help to me when I got any troubles especially in my learning process. Besides that, she always available to give me a new knowledge and advises when I am doing mistake. The ways she treat practical students expose us deeply in construction world and she also teach me how to use the knowledge that we get form studies. Not forget, thank you so much for all staff of Delima Maya Sdn. Bhd. because of their co-operation and very friendly to me along the practical training. Besides, they also never give up teaching me if there is questions ask.

Last but not least, most thanks for all BS lecturers because with their help and consideration, I was able to be in practical training. For BS department thank you very much with the existence of practical training, it can mostly expose students into the reality of job world. For my family and my friends, thank you for support, sharing the ideas and always give help when I am lost. Lastly, thanks for many kinds of helps and co-operation from all. I hope this report will satisfy all especially my lecturers.
