## **ACKNOWLEDGMENT**

Firstly I want to thank ALLAH S.W.T for allowing me to complete reports that assigned to me with details. Apart from that I also want to thank my parents NIK AZHAR B NIK ABDULLAH and WAN RUSIAH BT WAN KHALID for helping me morally even if they cannot help me in practical training.

Besides, I also want to thank the Project manager of ND RESOURCES SDN. BHD. EN.WAN FAKHARI HIZAMI BIN WAN ANNUAR for choosing me to undergo practical training in his company and he has provided guidance to me in dealing with a company as possible. Furthermore I would like to thank all staff in the office and on construction sites because they have helped me a lot to handle construction site perfectly without any problems.

I also want to thank EN.AMIR FARSHA MOHD ISA supervisor lecturers who have helped me in the practical training and assist me in preparing my report event though he had other assignments to finish. I also want to think all the lecturers who have taught me and helped me in completing the report.

Lastly, I would like to thank have helped me directly or indirectly for the completion of my assignment report and I want to apologize for my behavior and conversations that I have hurt the feelings of anyone.

## **ABSTRACT**

This report covers almost all matters regarding the process of installation of concrete on the building by explaining the components used, method of statements, and the maintenance to keep the concrete in a good condition for a stable and safe building. The information and data is collected during the period of training session at ND Resources for 4 months. The content has been arranged by introducing the company followed by the introduction of concrete and process on how to installed it to the building. The process of installing concrete is quite complicated because there is several step or procedure needed to be done such as the setting up of formwork, doing cube test and other processes. The report explained more detail on the sequence of the construction using reinforced concrete. Overall, this report focuses on core information related to installation of concrete on site.

## TABLE OF CONTENTS

CHAPTER	TITLES	PAGE
	<b>ACKNOWLEDGEMENT</b>	i
	<b>ABSTRACT</b>	ii
	<b>TABLE OF CONTENT</b>	iii
	<b>LIST OF FIGURE</b>	iv
	<b>LIST OF TABLE</b>	v
	<b>LIST OF PHOTO</b>	vi
<b>CHAPTER 1</b>	<b>COMPANY BACKGROUND</b>	
	1.1 Introduction	2
	1.2 Aim And Objectives	3
	1.3 Company Background	4
	1.4 Organization Chart Of Company	8
	1.5 List Of Project Completed	9
	1.5.1 List Of Current And Next Project	15
	1.6 Type Of Model	16
<b>CHAPTER 2</b>	<b>Literature Review</b>	
	2.0 Introduction	18
	2.1 Definition	19
	2.1.1 History of concrete	20
	2.1.2 Type of concrete available	26
	2.1.3 Properties of concrete	31
	2.2 Objectives	31
	2.3 The Elements In Concrete	32
	2.3.1 Ordinary Portland Cement	32
	2.3.2 How cement & concrete are made	33
