Thesis : Interrelationship Of Quarter Results Announcement
Towards Stock Price: Analysis Of Construction
Sector In Malaysia

Signature of Student :

Date : June 2018

ABSTRACT

This study investigates relationship between the stock price and the variables of Quarterly Result announcements. The issues of this study is to know and get the clear picture of how the Quarterly Result announcements affects the movement of the firm's stock price of top five performing construction companies. The data observation data are collected for 100 observations of quarterly data of each observe stock price. The data has been analyzed by using Eviews 10 to do descriptive, multiple regression, correlation analysis and test on assumption. The findings indicate for the Earning per share, net profit, net tangible asset per share, dividend and revenue are significant relationship with stock prices of top five of the highest market capitalizations of the construction companies.

ACKNOWLEDGEMENT

First and foremost, I wish to express my gratitude to the almighty Allah S.W.T for showering His blessings on me and giving me the strength to complete this challenging research paper. I would also like to thank my research advisor Madam Nik Nur Shafika Mustafa for her guidance, supervision and support. Her comments and suggestions greatly assist in the successful completion of this research paper. In addition, special thanks to Sir Syamsul Samsudin and Dr Roslina Hj. Mohamad Shafi for their guidance and advice towards the completion of this research paper.

I would like to extend my appreciation to all my friends and office colleagues for their understanding, kindness and moral support during the completion this research paper. Last but not least, my deepest gratitude to my beloved family for their unwavering support, invaluable assistance and sincere blessing.

Thank you.
