ABSTRACT

In this project report, to produce a successful design, the process of designing should be based upon detailed research and observation and every aspect should be identified. This final project for the diploma level of Interior Architecture is a clear understanding of the students on the whole aspect of the interior design project that have been studied from the first stage until the stage of the presentation of the design proposal. The project proposal chosen for this semester final project is proposal is proposed upgrading and new design for Sang Kancil Kindergarten and Child Care (Petra Jaya Branch), at no. 58, Taman Monah, Jalan Serunai, Petra Jaya, 93050, Kuching, Sarawak. The main objectives of this project proposal are to introduce new spaces that suitable for the children daily activities in the kindergarten and to proposed new image design for the kindergarten which has the look of an international kindergarten and a modern image as to bring the kindergarten name internationally. With the design proposal of Sang Kancil Kindergarten and Child Care, hope to gives out a suitable environment for the kindergarten. Concept and images are also a huge implementation for the design proposal as the proposed design is mainly based on the concept and image produced. In this project proposal I will try my best to produced a good design proposal for Sang Kancil Kindergarten and Child Care as to make the kindergarten known internationally.
