## ACKNOWLEDGEMENTS

Assalamualaikum w.b.t , Alhamdulillah praise to Allah SWT for blessing me ,Siti Nur Aslida Rosly to complete this Final Project Report for Upgrading Interior and New Scheme Majlis Sukan Negeri Perak. This Majlis Sukan Negeri Perak is located at Lot 4438, Kompleks Sukan Kg Simee, Ipoh. This project is to fulfill the requirements of Diploma in Interior <sup>Design</sup> Architecture. I would like to wish the greatest thanks to Associate Prof. Dr Mohd Sabri zaa b. Abd. Rashid as the program head who has given support, assistance and guidance to me throughout the duration to finish the project report. Also a million of thanks to Pn Mawar bt Masri, the coordinator and my ID lecturer who was given the guideline and support throughout the semester. Not forgetting to En Khedzir, En Nordin and En Zulkarnain Hazim as the coordinator for giving me a lot of moral support and encourage me in process of learning and making the final project for this final semester. Million thanks for my lovely and supporting family which is always be there for me and gives me support through the bitter and sweet time. and also to studio mates who is diligent to help me when I need their helps, Thanks a lot to you all.

## ABSTRACT

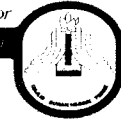

Wisma Majlis Sukan Negeri Perak was previously housed in Perak's Government Secretary Building. On December 2006, it has been moved to Wisma Majlis Sukan Negeri Perak, Kompleks Sukan MBI. To portray a more accurate image of the company's dynamism and passionate, a new building design was necessary. Problems at existing site must be solved with produce the spaces that user's need like leisure area, locker, changing and shower room for athlete's and some areas at administration office. Several researches that have to be carried out and to accumulate such as much information needed. The case studies are also has been done to know the operation of the offices. Traffic flow, material finishes, lighting and others is recognized to make more easier in planning the new design. This project is to design an office and athlete's center with a new scheme with combination of a new concept, 'In creating the art of star' and modern contemporary images. In conclusion, this upgrading project could gives the satisfaction and comfortable to the athletes, coaches and the workers. So this will bring a good impression to others. In design hopefully will give benefits to all, either local or foreigner.

## **1.0 PREFACE**

### **1.1 INTRODUCTION**

This course is the training about the design, where at this level, the student is given a task to prepare a design scheme based on the research and observation made by the students of certain issues or design problematic that exist in the design processes. This thesis is a report for upgrading and new interior scheme for Wisma Majlis Sukan Negeri Perak (MSNP), as the title to design for the final project of Diploma in Interior Design. The aim of this project is to improve the existing design at Lot 4438, Kompleks Sukan Kampung Simee, Ipoh Perak and come out with a new design scheme that maintain the MSNP corporate images. Wisma Majlis Sukan Negeri Perak (MSNP) represents the image of Perak's in sport arena. People will come to this building at multipurpose hall where tournaments in sorts of sports which is held. The existing old design building and has a bad traffic flow at their administration offices. This situation could give wrong impression to people who came to this building. There is also no facilities and amenities to the users. If the coaches and athletes are not comfortable to do their training, it will affect their performance and also Perak's reputation will be affected. As conclusion this upgrading project for the final project of semester 06 in the Interior Design course is that could give the satisfaction and comfortable to the users including the administration officer to work every day.
