ABSTRACT

This interior design final project is towards student understanding about the interior design project's whole aspect that has been studied from the basic level until the design proposal presentation. The selected final project is a Proposed Upgrading of Lumut Tourist Information Centre for Ministry of Tourism Malaysia at Jalan Sultan Idris Shah, 32200 Lumut, Perak. With the outcome of a new design of tourist information centre for Ministry of Tourism Malaysia, it is hoped to create a more welcoming environment of the Lumut Tourist Information Centre for tourist and visitors. The concept and image are designed to make the centre more appealing to lure more tourist and visitors. There were several researches done by various methods to succeed this tourist information centre final project, amongst them are site analysis, building analysis, interview, observation and case studies. All these studies identify the existing weaknesses and also attempt to solve some of the problems that appear. These investigations will be implemented in the design process with the intention to gain an attractive design and also suitable with the Ministry of Tourism Malaysia corporate image and guide lines in terms of function and aesthetic value.
