INTRODUCTION

1.1 FOREWORD

This is the report for the final project as part of regulation to hold a Diploma in Interior Architecture of Universiti Teknologi Mara. This course is the comprehensive training about design, where this level, the student is given a task to prepare a comprehensive design scheme based on research made and observation of certain issues that exist in design process. This is a report of PROPOSED UPGRADING FOR NEGERI SEMBILAN MUSEUM AT LOT NO, 985 JLN SG UJONG, and SEREMBAN NEGERI SEMBILAN and it is also the title for the final project of Diploma in Interior Architecture.

The importance of this project is to increase the variety of design elements especially in upgrading a museum into a place and centre where all the data can be gathered meanwhile the design can be applied together. Today, there is lot of number of museum in Malaysia but the large number of museum establishment does not mean that it can provide a good space for the visitor to learn about a certain artifact and the information that it has offers.
