CHAPTER 1.0 INTRODUCTION

1.1 Project Background

This thesis report is to Propose New Interior Design Scheme of Android One Stop Centre at Lot 88-99, Level 07, Berjaya Times Square, 1 Jalan Imbi, 55100 Kuala Lumpur. The main function of this centre is product retailing and service centre.

Android is an operating system for mobile devices such as smart phones and tablets computers. Android platform is one of the increasingly in use among public in Malaysia and also around the globe at the moment, with 100 million smart phone and tablets running it and 400.000 more being activated every day. But unfortunately Malaysia does not have its own Android Centre that provide service centre, sells products and some information for public.

Based on Cambridge International Dictionary of English, '*stop*' define as to stay in a place, while '*centre*' means the middle point or part. Where as One Stop Centre means providing a range of product or services in one place.
