ABSTRACT

The requirements of a Final Student of Diploma in Interior Architecture is to come out with a new project report and proposal regarding interior design project . This is to understand the process of design field from the smallest scope of detailing to the final presentation . The project proposal title is Proposed New Interior Design Scheme of Junk Bookstore at No 51Jalan Plumbum P 7/P Seksyen 7 ,40 000 Shah Alam Selangor Darul Ehsan for Permaliana Setia (M) Sdn Bhd.

Junk Book Store is a secondhand book store . It was first opened for business on 2nd May 1990 in a small room with a space of only 600 sq. ft. on the first floor at Wisma Ann Koai, Jalan Ampang, Kuala Lumpur. Though small in size, the store offers an extensive range of general books, magazines and comics. Mr. Tan and Adelyn Koh , the owner, had to opt for another bigger shop where a three-storey pre-war shophouse, between breaths of carbon monoxide from the perpetually buzzing Jalan Tun H. S. Lee at No. 78 came to be on January 28, 1996.

1998 saw the big triumph as Junk Book Store was awarded "The Biggest Secondhand Bookstore" by the Malaysia Book of Records, first-of-its-kind. The bookstore is full with treasure trove of out-of-print, rare first edition, hard to find quality books on all subjects (Malaya History, Malaya Published Books, History of all countries, World War II, Biographies, etc., old LP records, magazines and Marvel comics) from the 17th to the 20th century. The whole ambience of Junk Book Store looks like an old library well stocked with an impressive inventory of books, magazines, Marvel Comics and LP records. There is also a section of foreign languages books where backpackers read and enjoy.

This design project proposal and research are based on client's requirements, intention, demand , and also based on the company's mission and vision. The main objective of this design project and research is to design a new scheme of a secondhand book store, according to client's intention and requirements which is to apply sustainable and green issue on the design of the interiors along with its original concept of a green concept bookstore .

Besides, the Junk Bookstore also has an intention to propose a new corporate identity suitable with its concept of the awareness of global issue. This project is a a project where stages and process of research , building study , design exploration , space planning and analysis of client demand and requirements are being held.

ACKNOWLEDGEMENT

Bismillahirrahmanirrahim

Assalamualaikum w.b.t

As a student who is completing the requirements for the subjects taken , I am grateful to Allah S.W.T for the strengths and patient given to me through the journey of completing every task given . A thousand appreciation and thank to my parents, lecturers , friends and people around me who supports me through my journey of this research and other projects. A special thanks and appreciation to my client, Adelyn Koh for the informative help and interviews taht helped me alot through the process.

This research and report which relates to interior design final project has thought me alot of values and i gain alot of knowledge regarding interior design , building system and construction , electrical system and etc. This is valuable and important for me as I am going to face the real design field later in real world .

Valuable experiences during completing every single task is also important for me as a preparation for me to survive in real field of interior design later. As a process of completing research and project , I have understand alot about design methodology , design requirements , explore new designs , study about space planning and also experience in dealing with real people regardig building and site study . With the knowledge and experience i had through the journey of completing this research and project , I hope I can use it in the real field of design and improve my level of knowledge.

CHAPTER 1.0 INTRODUCTION

1.1 INTRODUCTION

This final report on the proposed design is essential in completing the final semester course . It acts as an exercise in understanding the design elements and also as a practice in applying the solution of design problems . This project is a new interior design scheme project for junk bookstore . Junk bookstore was awarded “The Biggest Secondhand Bookstore” by The Malaysia Book Of Records , first of its kind . Junk bookstore also offers an extensive range of general books , magazines , old Lp records , and marvel comics from the 17th to the 20th century . The whole ambience of Junk Bookstore is like an old library full with treasure trove out of print. Rare First edition , hard to find quality books on all subject story ,Malaya published books , history of all countries, world war II , biographies ,etc . Here is also a Section of foreign languages books where backpackers read and enjoy . The Store has also a stock of more than 200 000 ,used and bargain books with a comprehensive selection covering most fields of interest all filled up in corners , crammed into shelves , spread out from the floor to the ceiling .

1.2 PROJECT'S ISSUE

Project issues are list of statements and facts that relates to design of the existing Junk Bookstore . It is elaboration of the facts and informations regarding interior issues such as traffic flow, space planning and etc in a general and brief method.
