This final project is to propose new interior design of Rip Curl's Store for PADI Scuba Divers Club at Lot 5, Bangunan Terminal Jeti Pangkor, Sg Pinang Kecil, Pulau Pangkor, Perak. In Malaysia, product for water sport is limited and users do not have option. The issue is it difficult to find high quality of water sport's product since water sport in Malaysia is becoming popular lately. The objective of the project is to provide new interior design scheme that suitable for product and related with environment; to ensure the store have suitable display.

To collect the data collection, interview with the client have been done and some discussion has been carried out. From client will get the requirement of what client needs. Besides that, research has been done by internet, magazines, and newspaper to support data and increase the understanding of the project. All the data collection will be the guideline on design process and references to develop
