Accepted in partially fulfillment for the award of the Diploma in Interior Design

Report Supervisor	:	_____	Mr. Afzanizam Muhammad
Course Coordinator	:	_____	Mr. Muhammad Suhaimi Bin Musa
Program Coordinator	:	_____	Dr. Ahmad Marzukhi Bin Monir

ABSTRACT

The final project for the student of Diploma in Interior Design is a manifestation towards the student's knowledge about the whole aspect on interior design that had been learned from basic technical to the final presentation of the proposed design. The project that had been chosen for the final project is to propose Upgrading of Spanco Service Center for Spanco Bangi Sdn. Bhd at No. 33 Jalan P/21, Taman Perindustrian selaman, Seksyen 10, 43650 Bandar Baru Bangi, Selangor Darul Ehsan. This upgrading service center is to attract customer to come to service center. Concept and image that had been chosen not only must be suitable with the products, but it must have a strong impact towards the design purposes, where it will give a strong character to the shops. Connected to that, the chosen design style for Spanco Service center is based on hi-tech design, which goes all the way with the client's needs as they want their service center to have the hi-tech or modern beach look, and at the same time would attract the customers with to enter inside the service center. Before getting a desired design that is suitable with the client's needs, some data analysis has been done. The research included on types of customers that usually comes to Spanco Service center, types of services, spaces to be included in the proposed area, time operation and information about other service center that use the same system in management, as the proposed upgrading service center. Some of the information of the study is through interviews, printed media, internet, observation, and through the result from the case studies either locally or internationally.

ACKNOWLEDGEMENT
