**ONLINE WAQF ACCEPTANCE IN
MALAYSIA**

MOHAMAD FAISAL BIN MOHAMED YUSOF

IT Project submitted in partial fulfillment
of the requirements for the degree of
Master of Science in Information Technology

Faculty of Computer and Mathematical Sciences

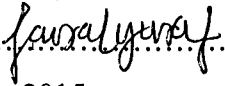

July 2015

AUTHOR'S DECLARATION

I declare that the work in this IT Project was carried out in accordance with the regulations of Universiti Teknologi MARA. It is original and is the results of my own work, unless otherwise indicated or acknowledged as reference work. This IT Project has not been submitted to any other academic institution or non-academic institution for any degree or qualification.

I, hereby, acknowledge that I have been supplied with the Academic Rules and Regulations for Post Graduate, Universiti Teknologi MARA, regulating the conduct of my study and research.

Name of Student : Mohamad Faisal Bin Mohamed Yusof
Student I.D. No. : 2013381565
Programed : Master of Science in Information Technology
Faculty : Computer and Mathematical Sciences
IT Project Title : Online Waqf Acceptance in Malaysia

Signature of Student :.....
Date : July 2015

ABSTRACT

The waqf is defined as an act of holding the certain property and preserving it for benefits of muslims community. There are several researched have been done on waqf however there are limited researches in understanding the factors that influence the online waqf acceptance. The past research usually focused on the cash waqf and management of waqf properties. The research is aiming in identifying the factors that influence the online waqf acceptance in Malaysia. The Technology Acceptance Model (TAM) and DeLone and McLean model is adapted in this study because the TAM is the most commonly used model in identifying the user acceptance in technology. A survey was conducted with IT professional that furthering their studies in Masters of Science in Information Technology, Faculty of Computer and Mathematical Science, UiTM Shah Alam. They are the potential group that will contribute to waqf. This research will produce the factors that influence the online waqf acceptance and proposed the conceptual model for online waqf environment. The findings from this research found that, perceive usefulness and information quality are the significant factors that influence the online waqf acceptance in Malaysia. In addition, the conceptual model has been constructed to improve the online waqf environment. The conceptual model from this research will contribute to organization that manages the waqf fund by providing the information about the factors that influence the online waqf acceptance in Malaysia.

ACKNOWLEDGEMENT

Alhamdulillah, praise and thank to Allah because of His Almighty and His utmost blessing, I was able to finish this research within the time duration given. Firstly, my special thanks go to my supervisor, Dr. Nurulhuda Noordin for her time and cooperation in giving guidance for this research.

Special appreciation goes to my beloved parents, Mr. Mohamed Yusof Bin Mohamed Rukon and Mrs. Hasmah Laili Binti Kassim for their support and motivation during my study. With their prayer and blessing, I was able to finish this research. This special appreciation also dedicated to my siblings Dr. Mohd Faiz, Mr. Mohd Firdaus, Mr. Mohd Fizree and my beloved sisters Nurul Fatimah, Dr. Nurhanani and Mrs Shiful Bariah.

Special gratitude towards the Associate Prof. Dr. Anitawati Mohd Lokman for the cooperation in giving the information related with the method in conducting academic research for masters program.

Last but not least, I would like to give my gratitude to my dearest friends and fellow classmates for their motivation and support during the process on completing this research.
