## ACKNOWLEDGEMENTS

First and foremost, I would like to express my gratitude to Allah S.W.T. It is because of His Grace that I had the strength to finish my research. Also, I would like to thank my research advisor Mr. Khairil Johari Johar for making a great commitment in teaching me and keeping me on track during the process of completing this subject. Without his dedication in monitoring my works, I would never have finished this research on time. I would also like to express my appreciation to both my parents for being so supportive towards my work and provided me with financial and moral support. Not to forget En. Syafiq, En. Irsyam and En. Yusof who have provided me insights and a lot of inputs during the interview. Not forget to mention my colleagues, families and friends who have been giving me genuine support. I would like to express my gratitude to them for the support.

## ABSTRACT

This study explores the uses of pentatonic scale for lead electric guitar players for beginner in rock music. As the guitar player, pentatonic scale are commonly used by the electric guitar especially for improvise. Major and minor pentatonic scales are often used for improvising the rock music. In the pentatonic scales, there are techniques that commonly used such as *bending, hammer on and pulled off, blues technique, solo over the chords and how to make melody in the scales*. This study explains the differences between major and minor pentatonic and the additional note in the scale. Besides, the study explain the way of using the techniques while improvising. There are audio recording and guitar tabulate provided in term of CD.
