

# **UNIVERSITY PROGRAM SELECTION USING FEEDFORWARD NEURAL NETWORK (FFNN)**

## **FINAL YEAR PROJECT REPORT**

**A 3<sup>rd</sup> Year Student**

Project thesis submitted in part fulfilment of the Bachelor of Computer  
Science (Hons) with the supervision of Assoc. Prof. Dr. Syed  
Ahmad Sheikh Al-Junid co-ordinated by Assoc. Prof. Zaidah Binti Ibrahim

Computer Science Department

Faculty of Computer and Mathematical Sciences

**Universiti Teknologi MARA**

## **ACKNOWLEDGEMENT**

Alhamdulillah and thank you to Allah S.W.T the most merciful for giving me the courage and strength to complete this project after a hard and long journey. I would like to thank my supervisor, Assoc. Prof. Dr. Syed Ahmad Sheikh Al-Junid and my coordinator Assoc. Prof. Zaidah Ibrahim for their guidance and support throughout the semester. Thank you for your advices and cooperation. Lastly, I would also like to thank my family, friends and colleagues for their support, encouragement and motivations.

## **Abstract**

Selecting programs that matches one's qualification with the university's program requirements is not an easy task especially for the Sijil Pelajaran Malaysia (SPM) leavers. Thus, this project aims to select the program that matches the SPM results with diploma program offered at the Faculty of Computer and Mathematical Sciences, Universiti Teknologi MARA. The data used is from the students that register in January 2009. The total number of data is 120 where 100 data is used for training and 20 data is used for testing. The data is massaged or categorized where the data is converted into binary numbers because Artificial Neural Network (ANN) performs better with binary numbers. The FeedForward Neural Network (FFNN) technique has been used in this project with the step function as the activation function to determine the calculation of the training data and testing data. The university program selection performance of the FFNN 88.5% accurate which shows that FFNN is a good technique for university program selection.

**Keywords:** neural networks, Feedforward, decision, selection

## TABLE OF CONTENTS

TABLE OF CONTENTS.....	i
<b>CHAPTER 1: INTRODUCTION</b>	
<b>1.0 Introduction.....</b>	<b>1</b>
<b>1.1 Research Background.....</b>	<b>1</b>
<b>1.2 Problem Statement.....</b>	<b>2</b>
<b>1.3 Research Purpose.....</b>	<b>2</b>
<b>1.4 Research Objectives.....</b>	<b>2</b>
<b>1.5 Scope of Research/Project.....</b>	<b>3</b>
<b>1.6 Technique (s) employed.....</b>	<b>4</b>
<b>1.7 Significance of Research.....</b>	<b>4</b>
<b>1.8 Summary.....</b>	<b>4</b>
<b>CHAPTER 2: LITERATURE REVIEW</b>	
<b>2.0 Introduction.....</b>	<b>5</b>
<b>2.1 Decision and Selection Problems.....</b>	<b>5</b>
<b>2.2 Decision and Selection Techniques.....</b>	<b>6</b>
<b>2.2.1 Artificial Neural Networks.....</b>	<b>6</b>
<b>2.2.2 Fuzzy Logic.....</b>	<b>6</b>
<b>2.2.3 Multiple Attribute Decision Making (MADM).....</b>	<b>7</b>
<b>2.2.4 Multiple Criteria Decision Making (MCDM).....</b>	<b>7</b>
<b>2.3 Artificial Neural Networks.....</b>	<b>8</b>
<b>2.3.1 Feed Forward Neural Networks.....</b>	<b>9</b>
<b>2.3.2 Back-propagation Neural Networks.....</b>	<b>9</b>
<b>2.3.3 Recurrent Neural Networks.....</b>	<b>10</b>
<b>2.4 Related works.....</b>	<b>14</b>
<b>2.4.1 Program Selection MADM System.....</b>	<b>14</b>
<b>2.4.2 Temperature Forecasting.....</b>	<b>14</b>
<b>2.4.3 Job Scheduling.....</b>	<b>15</b>
<b>2.4.4 The Lot-sizing Problems.....</b>	<b>15</b>

2.4.5 Backward Feature Selection .....	16
2.5 Summary .....	16

## CHAPTER 3: RESEARCH METHODOLOGY

3.0 Introduction .....	17
3.1 Research Framework .....	17
3.2 Research Methodology .....	18
3.2.1 Preliminary Study .....	18
3.2.2 Design .....	19
3.2.2.1 Design Overall process of flow .....	21
3.2.2.2 Process flow of developed application .....	22
3.2.2.3 Feedforward neural networks .....	23
3.2.2.4 Interface design .....	25
3.2.3 Development .....	26
3.2.4 Training and Testing .....	26
3.2.5 Result Analysis .....	27
3.3 Summary .....	27

## CHAPTER 4 :DESIGN AND IMPLEMENTATION

4.0 Introduction .....	28
4.0.1 FeedForward using Java application .....	28
4.1 Design FeedForward using Java application .....	30
4.1.1 Specify the admission prototype .....	30
4.1.2 Create the admission prototype by using Java application .....	30
4.1.3 Evaluate the FeedForward technique .....	30
4.2 Summary .....	32
