ABSTRACT

In the heart of Asia lies a land of many cultures, wonders and attractions. It's a bubbling, bustling melting pot of races and religions where Malays, Indians, Chinese and many other people live together in peace and harmony. Blessed with natural wonders galore, it is perfect for a memorable eco-holiday.

Necessities played an important role in daily life. Futhermore it also will help to improve the quality of life of the society and individual to fulfill the needs that is increasing everyday. Thus the choices of product that can fulfill the taste of the tourist will help to overcome one major problem in communication system. The others sdes of studies tha has been done by me,this problem at usually faced by the tourist who came to visit Malaysia.

After research hav been done, Wrist handphone can only be found in certain countries only such as Japan and Thailand. So, I take this initiatif to design Wrist handphone for the used of the tourist who came to visit Malaysia and at the same time commerlize the design of Wrist handphone to international level.

This already become culture to each designer to be able to create and design new product or creation for the convenience of daily work. The function and succesful of the design and creation f this product depends on how the process of the work and the element and also the principle of designation or creation that can be exploit and design with creative and innovative by the designer.
